

# 国台学术报告 NAOC COLLOQUIUM

## 2013 SUMMER BREAK NOTICE

In accordance with the Observatory annual leave (between July 22nd and Aug. 16th) notice, NAOC colloquium will also take a summer break during this period. Except the special talk by Dr. Nan- Yao Lu on Aug. 1st, the regular colloquium activity will resume after the break. Please see the poster then for the exact starting date.

In case you would like to arrange a observatory talk for your visitor during the break, please let us know at least one week before the expected talk date. We encourage that these talks can be accessible to the general audience. If you prefer your visitor a give a more technical/specific presentation, a small-scale seminar, rather than an observatory talk, is suggested. The host of the visitor will have the responsibility to organize and chair the talk, but the colloquium secretary will do her best to coordinate the schedule.

If you have any comments/suggestions, please let us know.
